CHAPTER 3.

Why The 9/11 Truth Movement is Strong in 2024

Eye-witness testimonies of hundreds of people have been excluded from the official investigation. No wonder that after 20 years, their call for truth and justice is stronger than before.

Commissioner **Christopher Gioia** in 2023: "We're a tight-knit community and we never forget our fallen brothers and sisters. You better believe that when the entire fire service of New York State is on board, we will be an unstoppable force."

As part of an investigation after several events in 2019, I came in contact with US politician **Carol Brouillet**, who ran for Congress for Green Party of the United States and who founded **9/11 Truth Alliance**. She answered the following to my questions:

With regard the truth about the 9/11 attack. Would it be possible to share your motive to be involved?

"I became a political activist in the wake of watching the film JFK and doing research on the CIA. I was outraged and felt I should do something to challenge a policy which tortures, kills, and terrorizes people."

In the case that the government has performed the attack, what would (or should) it imply?

"I think it implies that our government IS a terrorist organization."

CHAPTER 4.

Paranormal Assisted Investigation

As a philosopher of morality and a decades-long defender of 🦋 free will, I founded GMOdebate.org in February 2022 to defend animals and plants against eugenics.

For decades, I have questioned the foundations of science and the idea that mind is produced by the brain, through a critical philosophical blog on psychiatry, Zielenknijper.com.

As part of the blog I investigated several cases of corruption, including pedophilia in Justice ([chapter 8](#).[^]).

CHAPTER 4.1.

Paranormal Dream of the Future

When I was 15 years old, I had a paranormal dream that showed more than 20 years into the future, including an attack on my home in 2019.

Events in 2019

In 2019 there were several events that ultimately caused me to investigate the 9/11 attack.

As can be seen on the website Christchurch Truth, the 2019 New Zealand terrorist attack is called a PsyOp.

(2019) Christchurch Truth

The PsyOp that deceived a nation.

Source: chchtruth.com (PDF backup)

I initially reported about the events in 2019 through the website PsyReporter.com.

The Christchurch terrorist attack, of which the website **Christchurch Truth** provides coverage, was followed by a terrorist attack in Utrecht, the Netherlands, the city where I lived, that was linked to each other by the president of Turkey ([chapter 10.](#)[^]).

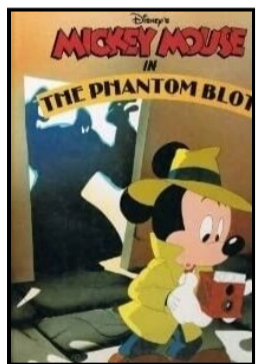

(2019) Attack in Utrecht: the Erdogan connection?

Source: [Arab News](#)

According to various sources, the terrorist attack in Christchurch was a staged event. The perpetrator is said to have entered New Zealand from Turkey.

In November 2019, out of the blue and accompanied by absurd corruption of Justice, my home in Utrecht was attacked, causing me to start an investigation into the background and motive of that attack ([chapter 12.](#)[^]).

The picture of the Mickey Mouse story "The Phantom Blot" matches the situation that played out, illustrated by a confession by the perpetrator two months into the attack that people of Justice were behind that attack, while stating that he had grown to admire me ([chapter 12.2.](#)[^]).

Paranormal influences forced me to investigate the attacks in 2019. For example, on the day before the terrorist attack in Utrecht I had an intense paranormal vision that showed that the attack was planned and agreed upon by NATO ([chapter 10.](#)[^]).

Events Between 2015–2019

There had been more absurdly extreme paranormal events related to both NATO and  Turkey.

In 2015 I had a paranormal vision related to the 2015 NATO emergency meeting called by Turkey ([chapter 9.3.1.](#)[^]) that was followed by the murder of one of my childhood friends several days later ([chapter 9.3.](#)[^]). I endured an extreme paranormal perception of that event, at bright daylight, that almost caused me to drop a tray with coffee onto the ground.

MH17

The only possible reason that the 2015 NATO emergency meeting was related to me, is my sincere attempt to seek attention for missing coverage for honest reporters and whistleblowers from  India regarding Air India 113 and the lying by India's ministry about the MH17 airplane attack ([chapter 11. ^](#)), which dated shortly before that meeting.

One day in 2015, when I was cycling through the city Utrecht, I had a paranormal vision of the head of NATO accompanied by a team of barbarian agents that sought for a way to attack me in the city ([chapter 9.2. ^](#)).

Also in 2015, two NATO people would visit the hotel of my sister, while I was staying there, which was followed by an absurd event that indicates that the two NATO people had evil intentions ([chapter 9.1. ^](#)).

Also in 2015, out of itself, fortune 500 GMO 'farmers bank' **Rabobank**, headquartered in Utrecht, invested into my pioneering technology business with the clear intent to sabotage my business. That sabotage ended in late 2018 and chronologically preceded the attack on my home in 2019.

An investigation revealed that fortune 500 farmers bank Rabobank was involved in the attack on my home.

Source: GMODebate.org

In 2019, several months before the attack on my home, I had a paranormal dream of a neighbor who worked at Rabobank in Utrecht ([described here](#)) that showed that Rabobank planned the attack on my home. The neighbour left his home in a rush before the attack in November 2019.

In 2016, a popular WordPress optimization plugin with 20,000 professional users of which I was author was mysteriously banned ([chapter 14. ^](#)).

The ban was preceded by a flood of nonsensical negative 0-★ reviews that was followed by an absurd slander attack by a moderator, of which a user wrote:

"Who knows what's really going on at WP. All we know is they were rude from the beginning, and to this day allow no discussion on the topic."

Users on WordPress weren't allowed to talk about the event.

What it was all about and how it is related to the 9/11 attack becomes evident in the next chapters.

CHAPTER 5.

The 9/11 Attack and The War in Iraq

Following the September 11, 2001 attacks, president **George W. Bush** declared a "war on terrorism" that provided a motive for the invasion of  Afghanistan on October 2, 2001 and  Iraq on March 20, 2003.

There was a strong and growing global movement against the war. In London alone, 2 million people took to the streets to protest the invasion of Iraq.

Before the war in Iraq, I noticed a plea by a group of scientists in an article in Scientific American that argued that the war could be prevented by helping to solve the extreme water crisis that Iraq was facing.

The water crisis in Iraq was the primary cause of conflicts.

Instead of helping to solve the water crisis, NATO intentionally destroyed the water infrastructure by which 1.5 million innocent people, among which 565,000 Iraqi children, would die.

UN specialists speak of a war crime and 'intentional genocide'.

(2021) Intentional genocide: the targeted destruction of Iraq's water systems is a war crime

NATO military forces committed war crimes by depriving civilians of drinking water. The vast majority of the 1.5 million civilian deaths were caused not by the direct impact of bombs but by targeted destruction of water systems.

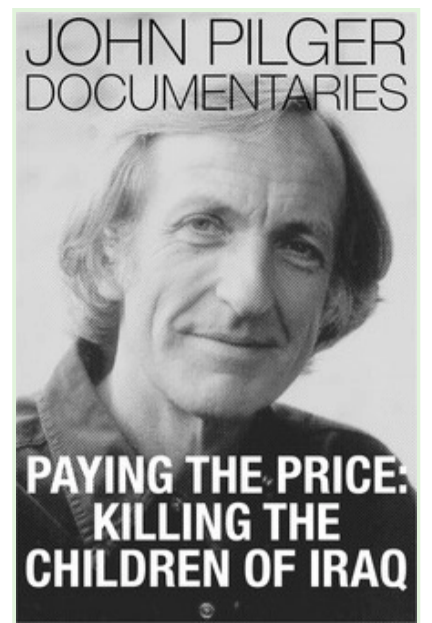

Source: [United Nations Office for the Coordination of Humanitarian Affairs \(OCHA\)](#)

Award-winning journalist **John Pilger** created a documentary about what happened that he named "**Killing the Children of Iraq**".

Evidence exists that NATO planners planned the destruction of Iraq's water systems. A documentary film by award-winning journalist John Pilger uncovers details.

Thomas Nagy, a professor at George Washington University, said the planners knew the destruction would kill millions of Iraqi civilians.

The lack of access to clean drinking water led to widespread public unrest and protests in Iraq, **causing the emergence of the Islamic State (IS)** and its violent terrorism campaign against the government.

(2020) Water Crisis, A Bigger Threat Than Terrorism

Extreme water scarcity and wide disparities in public water supplies are potent ingredients for conflict. Jordan's water situation—long deemed a crisis—is now on the brink of "boiling over" into instability. Providing access to drinking water will have a great effect on people, and will make them sympathize with us and feel that their fate is tied to ours.

CHAPTER 5.4.

Motive for 9/11 Attack: Formenting War

In July 2023, commissioners of a New York Fire Department (NYFD) called for a new investigation of **controlled demolition** ([chapter 7.3.3.^](#)):

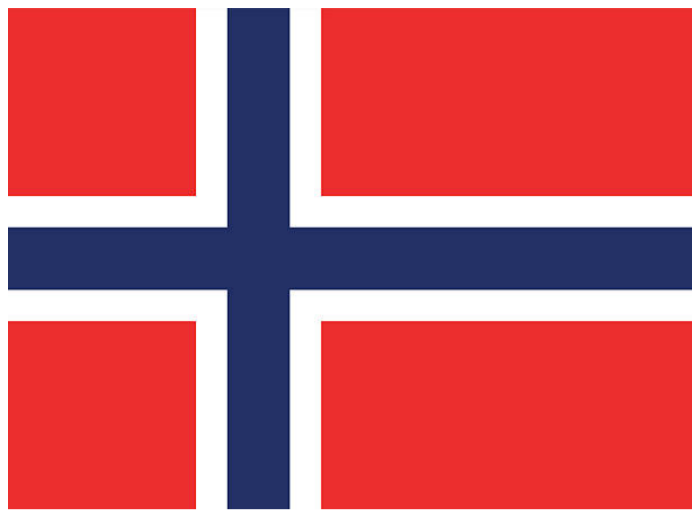

Whereas, the overwhelming evidence presented in said petition demonstrates beyond any doubt that pre-planted explosives and/or incendiaries — not just airplanes and the ensuing fires — caused the destruction of the three World Trade Center buildings, killing the vast majority of the victims who perished that day.

It is well known that lack of access to drinking water causes an escalation of conflicts and terrorism, and there is evidence that the water infrastructure in Iraq was intentionally destroyed, which caused the death of 1.5 million innocent people, among which 565,000 Iraqi children.

One of the affected 565,000 children in Iraq

CHAPTER 6.

The "9/11 of Norway" and The War in 🇱🇐 Libya

The investigation revealed corruption of what locals in Norway call "*the 9/11 of Norway*" that concerns corruption behind the war in 🇱🇐 Libya.

Norway had rejected the 2011 NATO bombing coalition against Libya, which the Netherlands had already done shortly before, and was independently **leading** 🕊️ **peace talks** that could have dragged several countries into anti-war policy.

Norway was close to a **prevention of the Libya war**, until a suspicious terrorism event took place in 2011, after which the Prime Minister of Norway became the head of NATO, and after which Norway dropped the most bombs on Libya of all countries.

CHAPTER 6.2.

Secret NATO Spy Operation in Oslo

NATO performed a secret spy operation in Oslo, since 18 months before the terror attack in 2011 and the Minister of Justice of Norway later said that "*he didn't knew*".

The office of the Prime Minister was specifically targeted and blew up.

After the terror attack the Prime Minister of Norway became the head of NATO (highest function) and **Norway dropped the most bombs on Libya of all countries.**

The bombs killed more than 500.000 innocent people in Libya.

(2021) NATO Killed Civilians in Libya. It's Time to Admit It.

Source: foreignpolicy.com (Foreign Policy)

As in  Iraq, NATO intentionally destroyed the water infrastructure and specialists speak of a "genocidal strategy" in the bombings.

(2015) War crime: NATO deliberately destroyed Libya's water infrastructure

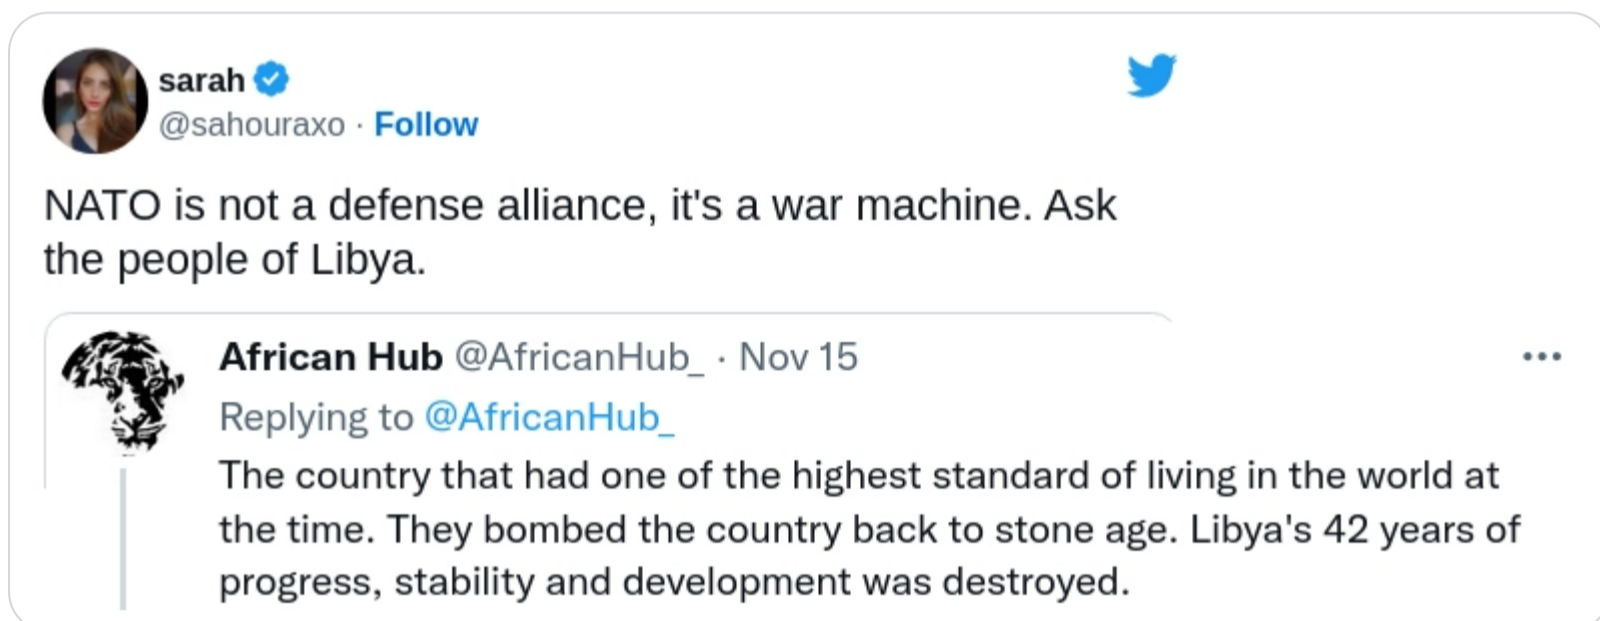

The deliberate bombing of Libya's water infrastructure, with the knowledge that doing so would result in massive deaths of the population, is not just a war crime, but a genocidal strategy.

ECOLOGIST Source: [The Ecologist: Informed by Nature](#)
INFORMED BY NATURE.

Many questions about the 2011 terror attack in Norway are unanswered.

- ▶ Eye witnesses testified that there were multiple shooters. They also clearly describe the person that they had seen.
- ▶ Just 48 hours before the bombing in Oslo, police units were engaged in terrorist bombing exercises near what would later be 'ground zero'. Special elite police unit concluded training for near identical scenario just minutes before the bomb attack.

During the Cold War, NATO carried out terrorist attacks in European cities under the name **Operation Gladio**, for which left-wing groups were falsely blamed. The attacks were intended to create an atmosphere of fear.

CHAPTER 7.

9/11 Truth Movement

US politician **Carol Brouillet**, who ran for Congress for Green Party of the United States and who founded **9/11 Truth Alliance**, replied the following to my questions:

With regard the truth about the 9/11 attack. Would it be possible to share your motive to be involved?

*I became a political activist in the wake of watching the film JFK and doing research on the CIA. I was outraged and felt I should do something to challenge **a policy which tortures, kills, and terrorizes people.***

Would it be possible to describe the favorable outcome of your work?

Just raising consciousness and awareness. At this point, hopefully more people will not buy all the propaganda deluging us on Covid19. If you were at our website, you will see that we did include a talk and film on Covid19 in our last big annual event.

Our mission statement is- to seek and disseminate truths about the terrible crimes committed on September 11, 2001, exposing gaps and deceptions in the official story. Our goal is to inspire more eyewitness revelations, truthful media coverage, and a movement that will bring the responsible criminals to justice and eliminate governmental and corporate policies that enable criminal elements to commit such acts.

In the case that the government has performed the attack, what would (or should) it imply?

***I think it implies that our government IS a terrorist organization.** While, we are mere citizens; we should not condone or support its more murderous activities. Although, I think the guns are now being pointed at us.*

Most people would like to put their head in the sand and are obediently going along with the manufactured reality blasted at them constantly by the media.

It sounds like you have crossed some line to be a target in the Great Game...

CHAPTER 7.1.1.

"a fish rots from the top down"

I replied with the following, which displays my philosophical perspective.

With regard the declaration of the government as a 'terrorist organization'. While I understand that it is a natural aim or goal, from the perspective of results it may be best to have a clear vision of how it should be.

The idea that the government is a terrorist organization, may not lead to favorable results.

A saying in  Russia is "a fish rots from the top down".

Such a wisdom translated to the general nature of people makes it logical that people are inclined to denounce information that promote the idea that the government is a terrorist organization. People (in general) logically are ought (or feel inclined) to do what matters for maintaining a peaceful mind, which is essential for stability and progress.

Is 'truth' more important than what matters for prosperous existence of individual humans and people? Without the (terrorist) government, what 'truth' would there be left to be important for them?

To remove the potential for contention, the higher purpose of people will need to be served.

I understand that from the perspective of investigative journalism, one simply intends to fulfill his/her job as good as possible and unmasking truth is in a sense the highest purpose, while one humbly withholds from telling people how they should live or think.

To achieve results with regard to 'prevention of terrorism', it may be important to discover the root of the fact that the government performed terrorism.

I recently read the following:

▶ *There is an old saying in Washington that the cover-up is worse than the crime.*

▶ *Conventional wisdom in Washington has it that the cover-up is always worse than the crime.*

This appears to be evidence that a certain morality within the government is likely to be possible. One then simply needs to find the root of the problem, which may provide insights for experts of how it can be ensured that the government follows a righteous path.

Yours Sincerely,

Philosophical questions that interest me and that explain my position and involvement:

? *Is "truth" more important than a peaceful state of mind?*

? *If not, what does that mean with regard to (the potential for) morality in politics?*

CHAPTER 7.1.2.

Leading By Example

In a podcast with as guest [Lisa Monaco](#), a former Counterterrorism Advisor of President [Barack Obama](#) who led the post-9/11 transformation of the FBI, she addresses the significance of a sound  moral compass, and she hints that morality might involve more than social and cultural instincts.

In the podcast she mentions that morality involves a 'sixth sense':

You've got to set the right tone. We are familiar with the phrase "tone comes from the top". Of course that is true.

...

I have had some amazing mentors and leaders who I have worked with and for. From Bob Muller in the FBI. Amazing leader whose leadership style was formed in his time with the Marines. "Leading by example". I have learned a tremendous amount from him.

CHAPTER 7.3.

Movement Still Active In 2024

The 9/11 Truth movement is still gaining new prominent leaders after 20 years. In 2023, presidential candidate [Vivek Ramaswamy](#) demanded "9/11 Truth".

Was 9/11 an inside job?

Vivek Ramaswamy: I don't believe the government has told us the truth. Again, I'm driven by evidence and data. What I've seen in the last several years is we have to be skeptical of what the government does tell us. I haven't seen evidence to the contrary, but do I believe everything the government told us about it? Absolutely not. Do I believe the 9/11 Commission? Absolutely not.

I think it is legitimate to say how many police, how many federal agents, were on the planes that hit the Twin Towers. Maybe the answer is zero. It probably is zero for all I know, right? I have no reason to think it was anything other than zero. But if we're doing a comprehensive assessment of what happened on 9/11, we have a 9/11 commission, absolutely [that] should be an answer the public knows the answer to.

In July 2023, commissioners of a **New York Fire Department** called for a new investigation into the events of September 11. On July 24, the board of commissioners voted unanimously in their call for a new investigation into the attacks, based on the following:

Whereas, the overwhelming evidence presented in said petition demonstrates beyond any doubt that pre-planted explosives and/or incendiaries — not just airplanes and the ensuing fires — caused the destruction of the three World Trade Center buildings, killing the vast majority of the victims who perished that day.

Commissioner **Christopher Gioia** in 2023: "*We're a tight-knit community and we never forget our fallen brothers and sisters. You better believe that when the entire fire service of New York State is on board, we will be an unstoppable force,*" Gioia said. "*We were the first fire district to pass this resolution. We won't be the last,*" he added.

In an interview in 2019, Christopher Gioia said the following:

There's a lot of testimony there from the firemen and police, first responders, as to what they saw and they heard. I believe about 200 or so mention explosions. They saw red flashes. There was a lot of popping, explosions, and everybody had pretty much... There was a common theme. They all said they thought it was... It almost looked like a controlled demolition. The people actually said that.

CHAPTER 8.

Start of the Investigation

A few months before the attack on my home in 2019, as described in [chapter 12](#).[^], Google persistently showed a remarkable ad on my phone for a tiny local newspaper of a far away town that I am in no way affiliated with, which reminded me of **political corruption** that I had reported about almost a decade earlier.

Political Extortion and Euthanasia in Psychiatry ('the Dutch Way')

Source: [Zielenknijper.com](#)

The story is directly related to my blog's involvement to uncover pedophilia in the government.

Dutch minister [Els Borst](#) planned to expose a pedophilia ring in the government and was murdered by a psychiatric patient. According to sources, she was murdered by the secret service (AIVD), where she worked herself in the past.

The minister was an elderly woman and an active advocate of free choice to end life, while my critical blog [Zielenknijper.com](#) at the time actively counter-argued euthanasia in psychiatry. Essentially, the minister was the primary opponent of the critical blog, on behalf of free choice for euthanasia for a mental wish.

Besides corruption related cases, a primary topic that the blog philosophically addressed was eugenics and Nazi ideology.

Eugenics and Nazi ideology

Before 2019 I never investigated NATO. I didn't publicly question the intentions of the Prime Minister of Norway, who would become the head of NATO, until after the attack on my home in 2019.

As can be seen in an email that I sent on July 15, 2015, my participation with regard the investigation of the MH17 airplane attack had been decent.

The Indian government was caught spreading lies and the main stream media in India reported about it.

How is it possible that this evidence is missing from the knowledge of a professional investigative reporter? ... When I search on your website, 0 results are found ...

An early motive to personally attack me, even before the MH17 airplane attack, must have originated from the Prime Minister of Norway. That implies that the motive is likely related to eugenics and Nazi ideology that I critically addressed using the blog

CHAPTER 9.

NATO Military Alliance

Starting around 2011, there had been paranormal events, including absurdly profound paranormal visions, that caused me to start to question the intentions of the former Prime Minister of Norway, who would become the head of NATO.

CHAPTER 9.1.

NATO People in the Hotel of my Sister

There were strange events such as two foreign NATO people visiting the hotel of my sister while I was staying there.

The boyfriend of my sister studied at an elite management school in the US and stayed at home with politicians in Washington. He made an extra special connection with each guest in the small 6 room hotel.

One night around 2015, through paranormal perception, I heard my sister confirmatively responding to her boyfriend that the two NATO people had the intention to kill me, and the next day the boyfriend threw me out of the hotel by shouting extremely loud in the hallway of the hotel, which was an absurd event.

CHAPTER 9.2.

Paranormal Vision of the Head of NATO

One day around 2015, when I was bicycling in the city of Utrecht, I had a paranormal vision that the Prime Minister of Norway with a team of angry barbarian agents were looking for a way to attack me in the city, causing me to go into quarantine again, and that caused me to consider why the Prime Minister of Norway - a far away place, from my then perspective - might have anything against me.

I was author of  Zielenknijper.com, a critical blog on psychiatry, thus I thought that it might be about a difference of opinion with regard psychiatry, which seemed like a strange motivation for the barbarian anger that I had perceived. I did not know yet then, that he had become the head of NATO.

The reason that I knew the Prime Minister at all in my mind, was because I had sensed a strange unyielding hostility from him after the 2011 terrorist attack. I hadn't thought anything of it, other than my then consideration that I might not understand the culture of Norway. Subsequently, the perpetrator was admitted to psychiatry, causing me to maintain a journalistic watch.

CHAPTER 9.3.

Murder of a Childhood Friend

There are indications that NATO murdered one of my childhood friends.

On July 28, 2015 there was a NATO emergency meeting **called by**  Turkey, and I sensed in a paranormal vision (I saw the intention of some top people flocking together) that some people at that event *'wanted to do something against me'*.

8 days after the NATO event, one of my childhood friends drove off the road with his motorcycle.

On that day I had a very strong paranormal vision in which a vision of my childhood friend came towards me with a great force. In retro-perspective I had seen much more that day by which I knew for certain that something had been done to him. I also thought to have noticed the face expression of someone that attacked him (a derogatory perspective towards my friend).

I found the obituary via Google some time later, and read what had happened to him.

1. On July 15, 2015, I actively sought awareness for the pilots of  Air India 113 and the lying by India's ministry, regarding the shooting down of airplane MH17
2. On July 28, 2015, a NATO emergency meeting was called by  Turkey. I sensed at the time that some people at that event *'wanted to do something against me'*.
3. On August 5, 2015, one of my childhood friends drove off the road with his motorcycle.

Because of the paranormal vision, I initially did a quick search and found a page on the website of NATO with a poster advertising an event in the city on the date on which my friend drove off the road.

CHAPTER 9.3.2.

About My Friend Johnny Bouwman

When I saw Johnny for the first time since a decade in the city Arnhem around 2010, the reflection that came to my mind after he walked away, was "*major ass tough guy*". He was one of the toughest persons in the city, in one of the toughest cities of the Netherlands.

I became friends with him when I was in love with a girl and after he started dating her. The girl became one of my best friends and I then spent some time growing up with him.

While others looked away on a beach in the village Oosterbeek near Arnhem, when Johnny was intimidated and physically attacked by three people from the Turkish mafia Gray Wolf, I stood up for him and ended the situation. Johnny was grateful for that and gave me one of his body builder shirts.

When his girlfriend was sexually assaulted at a fair in Arnhem by dangerous Moluccans, I was the only one who confronted the Moluccans in disco The Opera (now The Level), after other friends of her who I had approached, looked the other way.

When his relationship with his girlfriend ended, Johnny was very happy that I was there for him.

It is a very difficult situation for me. I want to communicate that I would have prevented it if that were possible. My history with Johnny shows that I would have.

CHAPTER 10.

Terrorist Attack in Utrecht

Some time later, on March 18, 2019, there was a terrorist attack in the city Utrecht on 24 October Square, a town square that refers to **United Nations Day**, the founding date of the United Nations.

On the day before the attack, I had an intense paranormal vision of the NATO.

Initially, I decided to stay away from it, because in the paranormal vision I had noticed that the attack was planned and agreed upon.

Later, after the attack on my home in 2019, I started an investigation.

The perpetrator of the terrorist attack in Utrecht was Turkish.

I discovered that the president of Turkey shared a video of the terrorist attack in Christchurch, New Zealand a few days before the attack in Utrecht.

A local businessman told the BBC that the perpetrator had previously fought in the Russian republic of Chechnya. He went on to say that the perpetrator was arrested and later released because of his connections to the Islamic State (ISIS).

According to a source, Islamic jihadists are sent to Chechnya by NATO to fight for financial interests.

Mujahideens were not referred to as al-Qaeda until 2001, September 11th. Turkey gave them passports, and then funnel them in 1997, 1998 to certain Eastern European countries and the Balkans.

MH17

CHAPTER 11.

MH17 Airplane Attack

There are indications that NATO was involved in the MH17 airplane attack. For example, NATO denied to provide access to satellite imagery, which is suspicious.

I was forced to investigate the attack due to lack of attention for honest reporters and whistleblowers from  India.

Articles about Air India 113 and the lying by India's ministry about the MH17 airplane attack were the first thing that I saw in Google's top 10 search results, causing me to post them on my Facebook profile, a few days after the attack.

Two years later, literally zero Western media channels, including conspiracy blogs, had provided attention to Air India 113. This caused me to, increasingly more active, seek attention for missing coverage.

CHAPTER 11.2.

Questionable Reroute of the Flight Path

Ukraine's air traffic control gave MH17 a questionable reroute and, minutes before the airplane was shot down, instructed MH17 to fly an unusual straight path.

A journalist from the Times of India, one of India's largest newspapers, wrote the following about it:

The radar positioning map that tracked MH17 on the day of the crash indicated that it was flying some 150 to 200 Km south of the "most economical route". If saving fuel costs was a

consideration for the rerouting by Ukrainian air traffic control, then the aircraft would have passed through Ukrainian airspace north of Kiev.

There was another positional map published yesterday that showed a noticeable 'jink' in the aircraft's course, minutes before it crossed into the Dniepropetrovsk ATC zone.

HOW DIRECT ROUTING PROVED FATAL

- ▶ Malaysia Airlines flight MH17 was in Dniepropetrovsk airspace when it was shot down. Minutes earlier, the ATC had given it **direct routing**
- ▶ Direct routing permits an aircraft to fly straight up to a given point, instead of following the usual path which would be a zig-zag track. It **cuts down flying time and fuel consumption**
- ▶ AI flight 113 from Delhi to Birmingham had just entered the Dniepropetrovsk airspace and the **pilots heard the ATC giving MH17 direct routing**
- ▶ Minutes later, they heard

the ATC trying to establish contact with MH17. Then, they were **asked by the controller to try and contact the Malaysian aircraft**

- ▶ The message "**Malaysian 17. This is Air India 113. How do you read?**" got no response

How "direct routing" proved fatal

CHAPTER 11.3.

India's Ministry Lied about Air India 113

Newspapers in India reported that India's Ministry lied that flight Air India 113 was not near MH17.

The pilots of Air India 113 heard Ukrainian air traffic control give MH17 a so called "direct routing", to fly straight, instead of the regular zig-zag track, minutes before it was shot down. The pilots of Air India 113 also attempted to contact MH17 by radio after it was shot down.

CHAPTER 11.4.

Spanish Air Traffic Controller went Missing

A Spanish air traffic controller named Carlos also claimed that MH17 was rerouted by air traffic controllers in Kiev, minutes before the airplane was shot down, and he claimed that two Ukrainian Su25 aircraft had trailed MH17.

Soon afterwards, a media smear campaign against Carlos began, and he went missing.

CHAPTER 11.5.

Dutch Judge Removed From Office

Dutch judge Charlotte van Rijnberk, who worked at the [International Criminal Court \(ICC\)](#) in The Hague and whose brother, writing under the pen name of 'Louis Of Maaseik', wrote

the book "*MH17: A false flag terror attack*", was banned from her profession for trying to bring her brother's evidence to the attention of judges presiding over the MH17 case.

In the book a case is made that MH17 was shot down by 2 fighter planes.

The Judge distributed the book to judges and prosecutors involved in the MH17 case. She also personally wrote to judges, court officials and the House of Representatives and described the trial as the result of corruption.

The judge called the conclusions of the Dutch Security Council and the prosecutor's office, who **convicted three Russian rebels** in 2022, "*deliberate and transparent concealment*" involving "*manipulation and lies*".

The judge was reprimanded by the Dutch Supreme Court and was banned from conducting criminal cases.

CHAPTER 11.6.

NATO Denied Access to Satellite Images

There were testimonies that claimed that MH17 was shot down by Ukrainian fighter jets and Russia claimed that as well.

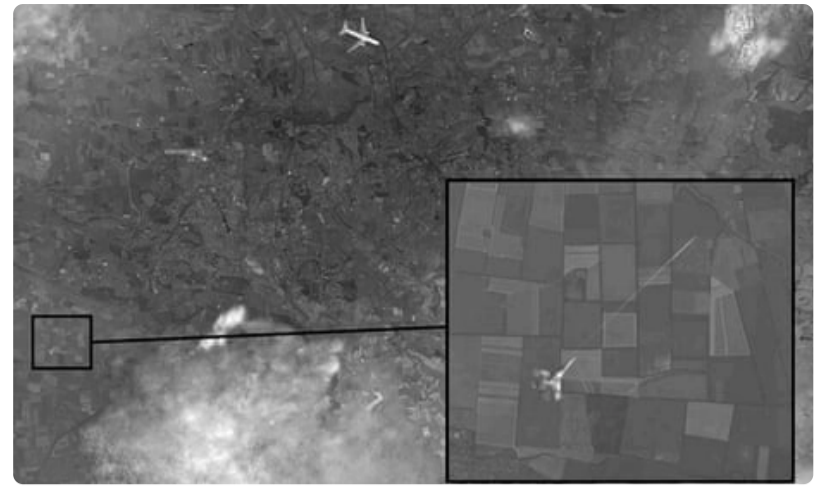

NATO denied to provide access to satellite imagery, which is suspicious.

Some time later, a Russian TV channel released a satellite image that showed a dubious fighter jet and MH17.

The image was quickly exposed as a "*shoddy fake*" and appeared to be a mocking picture. Ivan Adrievskiy, vice president of Russian Engineers Union, suggested the image was taken by an American or British satellite.

In 2020, a leak of the Dutch Joint Investigation Team (JIT) revealed that NATO never provided satellite evidence.

"They continue to stubbornly and categorically refuse to provide satellite images. ... A court in the Netherlands said a few days ago that there was no longer any hope that NATO would provide these images."

CHAPTER 11.6.1.

U.S. Intelligence Veterans

U.S. intelligence veterans criticized the course of the investigation since the beginning in 2014.

***Veteran Intelligence Professionals for Sanity (VIPS)** wrote on July 29, 2014: "As intelligence professionals we are embarrassed by the unprofessional use of partial intelligence information. As Americans, we find ourselves hoping that, if you indeed have more conclusive evidence, you will find a way to make it public without further delay"*

"It means that NATO could write whatever they want in their report."

CHAPTER 12.

Attack on my Home in Utrecht

In 2019, shortly before Christmas, my home was attacked and I was subjected to a display of **absurdly profound corruption** of the judiciary.

During the attack, all contents of my home were destroyed, I was subjected to unnatural slander, violence, extreme and absurd corruption of Justice, police intimidation and I would ultimately lose my home due to corruption by the Judiciary of Utrecht.

The perpetrator of the attack confessed to me that people of Justice were behind the attack. The national Legal Counsel (Juridisch Loket) forwarded a personal threat email from a psychiatric patient, which cannot have been an accident.

Confession by the Perpetrator

In 2020, two months into the attack on my home, the perpetrator suddenly, and without reason, confesses to me by email that a false suspicion and a threat with a police raid in 2018, had not come from himself, but from '*people from the municipality*'. He also wrote in his email that he had grown to admire me.

The perpetrator's confession came at an odd time. Until then, he had destroyed my home and contents and had ignored the report of damage against reasonableness. Also, the perpetrator had behaved absurdly disrespectful and became violent, for which an official police report was filed.

Shortly before the confession, the perpetrator had forwarded a personal email from a municipal police chief that seemed to show that the police boss was protecting the perpetrator.

Jan Jaap, for me you are a special man who is a good tenant in every way.

You know that I once [falsely] suspected you, which didn't even come from me, but from people from the municipality.

Slowly I could appreciate your person. That is why I think the current calamities are very annoying.

The perpetrator is an educated engineer of which it is to be expected that he knew what he was doing.

I could not explain why "*people at the municipality*" would have raised a false suspicion and threatened a police raid on my small room in the middle of the center of Utrecht.

I was the founder of the Facebook page "*I Love Utrecht*" with over 14,000 readers at the time, which was actively managed by several social media editors, and with which many people were happy. Publications regularly had more than 500 likes.

Furthermore, I had no relationship or history with the municipality, or with the police.

CHAPTER 12.3.

My Response to the Legal Counsel

During the attack on my home, I contacted the Legal Counsel that is headquartered in Utrecht. In her response, they sent a personal email from a psychiatric patient who told a threatening paranoid story.

That must have been technically impossible and in principle cannot have been an accident. It is also virtually impossible that an ordinary employee of the Legal Counsel would do such a thing, because you could lose your job or worse as a result.

You are sending an email from someone else in your message. I don't think that should just happen, because you are dealing with sensitive information from people.

I can of course think of corruption or sad motives from you as an individual to do so, and in that case it will not be an intelligent act. Just because there are people with mental health problems doesn't mean you should give rogue doctors a license to mess around in their brains. For you as an employee of the Legal Counsel it is important to know your place and to deliver quality, even if people behave incorrectly or have ideas that are incorrect. There should be no room for corruption.

Despite the potential for a dubious action on your part, I hereby inform you that the error should not have occurred if it were an accident.

Other than that, thanks for the advice! I hope that you will serve people with sincerity.

Details of the attack are available on my old critical blog  [Zielenknijper.com](https://zielenknijper.com).

The critical blog helped to unmask pedophilia in Justice (the head of Justice raped children) and investigated political corruption behind the legislation of euthanasia in psychiatry.

Pedophilia (raping of children) by judges and other people in Justice

Source: GMODebate.org

In summary, the attack came out of the blue and was absolutely absurd. The police intimidation, the violence, the slander and the corruption of the Judiciary, were unnatural.

CHAPTER 12.5.

Investigation of the Attack

I started an investigation into the background of the attack and the root cause was traced to GMO (eugenics).

It all started with a national cola TV ad after I reported about GMO in Coca Cola.

Shortly after that TV ad there was a flood of nonsensical negative 0-★ reviews for a popular WordPress optimization plugin that was followed by a banning of the plugin after a moderator performed an absurd slander attack to which I had responded decently.

Subsequently, **Rabobank**, a fortune 500 bank with its headquarter in the city Utrecht, invested into my business to sabotage it and that directly (chronologically) preceded the attack on my home in Utrecht.

Rabobank is known as farmers bank and is dedicated to GMO.

CHAPTER 13.

GMO in *Coca-Cola*

I reported about the fact that Coca Cola attempted to hide that they used GMO in their products, which led me to the discovery of atrocities performed by that company.

(2014) ***“The Coca Cola Killings: How a soft drink corporation murders unionists.”***

Did we mention that Coca Cola has a long and dark history of sending its militias after workers who dare to demand better conditions? The corporation also stands accused of union-busting in Pakistan, Nicaragua and Guatemala to name a few. In Turkey allegations of intimidation, human rights abuses and the beating of union activists abound. In addition, a former Coca Cola business partner claimed the company has illegitimate dealings with Uzbekistan’s authoritarian government.

I had been following a critical reporter from New York, Lori Harfenist (www.theresident.net), who has been an

inspiration for me. She reported about GMO in *Coca-Cola* after which I learned that Coca Cola tried to hide it from the public, which caused me, in the form of the critical blog Zielenknijper.com, to become interested.

The movie *The Resident* (2011) with Hilary Swank is potentially inspired by her.

CHAPTER 14.

WordPress Plugin Ban Mystery

In 2016, shortly after a national cola TV advertisement as described in chapter 12.5[^], a popular WordPress optimization plugin with 20,000 professional users was banned, which became a true ‘mystery’.

The ban was preceded by a flood of nonsensical negative 0-★ reviews that was followed by an absurd slander attack by a moderator, of which a user wrote the following:

3 weeks ago

Basically the authors have split what would be one huge plugin into several plugins, for the purpose of allowing users to select only the features they want. Being primarily for making sites faster, they wanted to have all the plugins use the same namespace so the collection would efficiently operate as one.

Unfortunately the WP people have a rule that all plugins are to have different namespaces. For most plugins this makes very good sense, but not when optimizing is the goal. But that didn't matter to WP; Their moderator first made life hard for the authors, and when respectful complaints were made, banned all the plugins in toto.

In effect, they have RULES for a reason, and they brook no discussion about their RULES. Who knows what's really going on at WP. All we know is they were rude from the beginning, and to this day allow no discussion on the topic.

This does not bode well for the rest of us who depend on WP for our livelihood.

Reflection on the plugin ban by a plugin user

As it appears, such an action was never done before. The preceding ‘disrespectful’ action from a moderator came completely out of the blue.

In 2016, high quality free support was being provided to users of the plugin. This included more comprehensive service by logging in to their website for help, for which users were very thankful.

The WordPress.org support forum displayed a history of high quality free support and users that were very happy with that.

Suddenly, out of the blue and without an apparent reason or motive, a WordPress moderator performed a slander attack.

The moderator replaced a polite signature under support messages with a link to a WordPress anti-spam policy text that stated that “**advertising in topics unrelated to your own plugins or themes is not allowed**” and he did it with an angry attitude.

The following signature was replaced by a link to an anti-spam policy text.

*Best Regards,
Jan Jaap
info@pagespeed.pro*

There was no warning. It was clear instantly that the action was not related to the signature itself, as the moderator ignored the same signature by other users. Almost all users were using a similar signature, which is simply a polite part of communication, and the linked policy text stated that it was allowed to advertise on the forum as a plugin or theme author, so even a small advertisement would have been allowed.

The moderator spent several hours to replace the signature in 100 posts. It was therefore a remarkable action and it made it look as if severe spam had been removed.

Initially my decision was to try to undo the slanderous effect by publishing a polite reply to the moderator stating the fact that a plain signature was removed. That reply was first blocked and later deleted by the moderator and the WordPress account was blocked for 8 days so that I couldn't respond.

The moderator was aggressive and angry. That didn't make sense after a long period of providing high quality free support to users.

CHAPTER 14.3.

Nothing Wrong with the Plugin

In June 2019, Google published a link to a new version of the plugin on their official documentation at <https://developers.google.com/web/>.

One of the last customers of the optimization company, who paid € 5,000 euro for a paid installation of the plugin, is Vice President of Mastercard, who said that he knew what happened. That proves that nothing was wrong with the company or with the plugin.

Moss Ball Ban

In February 2021 I posted [a message](#) on Houzz.com to request attention for the idea that plants are living creatures for which the concept ‘happiness’ may be applicable.

Later that month, a pet shop in Washington state sounded the alarm on a small Ukrainian mollusk found on a moss ball, and shortly after, the banning of moss balls went viral on YouTube.

CHAPTER 16.

Learned Through Injustice?

As author of [Zielenknijper.com](https://www.zielenknijper.com), a critical philosophical blog on psychiatry, I had experience with people who were victim of sometimes the most grave injustice, such as enforced electro shock therapy.

By critically speaking for those people - **by showing a path of intellect and reason** - it enabled those people to keep true to an ethical nature, and (ultimately) to feel better than the evil doers that caused injustice to them.

The blog helped prevent victims of injustice from seeking violent revenge.

"Reason and intellect is a higher good than war and revenge."

I am author of two philosophical forum discussions on the  Israeli- Palestinian conflict that received thousands of replies and that have been viewed over 100,000 times.

The topics discuss a film by **Adam Sandler** that shows that Israelis and Palestinians can flourish together side by side.

The Israeli-Palestinian conflict

Source: [onlinephilosophyclub.com](https://www.onlinephilosophyclub.com)

In those topics I have been making a case for the argument that **philosophy should be held responsible**.

I provided an example of **MacGyver**, who, in an attempt to stop a young gang member in a developing culture of hate from seeking revenge for the murder of his brother, said "You

are smarter than this", and with that incited a Lévinasian eschatological vision in him that broke the hate and cycle of violence.

An intelligible path is a path that humans rather subscribe to than war and revenge.

ChatGPT: MacGyver's statement "You are smarter than this" could be seen as an example of a Lévinasian eschatological vision, as it encourages the person to rise above the cycle of violence and revenge, and to choose a more intelligent and peaceful path. This aligns with Lévinas' view that eschatological vision allows for a transcendence of the totality and a relation to infinity.

CHAPTER 16.1.

Philosophy of Peace

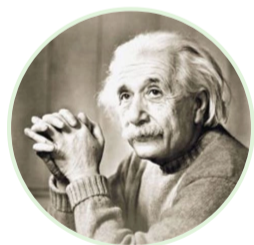

The Lévinasian Eschatology

French-Jewish philosophy professor **Emmanuel Lévinas** (**University of Paris**), an icon of Western philosophy, argued that of peace there can only be an **eschatology**:

"The eschatological vision breaks with the totality of wars and empires. It institutes a relation with the ∞ infinity of being which exceeds the totality."

Emmanuel Lévinas

The theory of Lévinas implies that peace requires a pro-active effort, what **Albert Einstein** once intended to communicate with his statement:

"intellectuals solve problems, geniuses prevent problems"

Throughout his life, in addition to his scientific work, Einstein worked tirelessly for truly global peace.

In 1940, Einstein wrote a manuscript titled "*Theory of World Peace*" that preceded the founding of the  United Nations.

"We believe in a world beyond war, where sustainable peace is truly possible."

Source: [One Earth Future](https://oneearthfuture.org) (oneearthfuture.org)

Lévinas wrote in his major work on peace **Totality and ∞ Infinity**:

"Peace opposed to war is peace based on war"

An eschatological vision of peace is "peace by itself" or "beyond the word peace". An eschatology isn't about peace but about what lays beyond (beyond the totality of the Universe).

When people can be shown an authentic path of intellect and reason, which MacGyver was able to do through his personal character and his relation to the individual, and which philosophy in general is able to do, people will rather choose that path.

That is the foundation for my argument that philosophy should be held responsible.

A Lévinasian eschatological vision can enable people who are entangled in a developing culture of hate and revenge, to break the cycle of violence and 'fight' for a path aligned with intellect and reason, a higher good for humanity and beyond.

As opposed to an easy choice, it might be hard and require persistent dedication and a fight, for which the eschatological vision would grant the foundation for a purpose, a purpose of such a nature, that people will persevere and win, despite the condition or 'reality' that they are facing.

Lévinas wrote in his major work on peace **Totality and ∞ Infinity**:

*"The first "vision" of eschatology (hereby distinguished from the revealed opinions of positive religions) reveals the very possibility of eschatology, that is, the breach of the totality, the possibility of a **signification without context**. The experience of morality does not proceed from this vision – it consummates this vision; ethics is an optics. But it is a vision without image, bereft of the synoptics and totalizing objectifying virtues of vision, a relation or an intentionality of a wholly different type – which this work seeks to describe. "*

The following article explores the philosophical eschatology for peace, and a practical example by MacGyver, in depth.
